

**North East Derbyshire District Council**

**Council**

**2 March 2016**

**Review of Electoral Arrangements**

**Report No CE/01/15-16/DS of the Chief Executive**

This report is public

**Purpose of the Report**

- To advise members of the planned electoral review of North East Derbyshire.
- To seek relevant delegations to the Chief Executive to take forward the review in line with statutory timescales.

**1 Report Details**

1.1 The Local Government Boundary Commission for England (LGBCE) has advised that as part of its work programme over the next two years, it intends to carry out a full review of the electoral arrangements in North East Derbyshire. *(A similar review will also be carried out in Bolsover during the same time period).*

1.2 Under the LGBCE guidelines if either of the following conditions are found to exist, then consideration is given to the need for a review:-

- Any local authority with a ward that has an electoral variance in excess of 30%. This means a ward having at least 30% more (or less) electors in it than the average for the authority as a whole; and/or
- Any local authority where more than 30% of the wards have an electoral variance in excess of 10% from the average for that authority.

In North East Derbyshire one ward (Renishaw) currently has an electoral variance in excess of 30% of the average.

1.3 The Commission must conduct its review in accordance with statutory criteria and is bound to have regard to the following:

- a) The need to secure equality of representation;
- b) The need to reflect the identities and interests of local communities; and
- c) The need to secure effective and convenient local government.

1.4 The purpose of the review is to address the imbalances in the electoral variances in accordance with the statutory criteria. In so doing, the Commission will decide the pattern of wards for the entire Council including as follows:-

- Total number of councillors (council size)
- Number of wards
- Names of wards
- Boundaries of wards

The proposed review timetable is as follows:-

The LGBCE will, during the preliminary period, assist the Council in the preparations which are needed to participate in the review work, including meeting with councillors.

The lead commissioner for the review, Professor Paul Wiles, will be attending the Council meeting on 2<sup>nd</sup> March 2016, to discuss the management of the process. A copy of the presentation (**Appendix 1**) to be given and members briefing document (**Appendix 2**) are attached.

- 1.5 There are two key stages within the timetable, namely the submission of proposals relating to the Council size (meaning the appropriate number of councillors for North East Derbyshire) and the subsequent pattern of electoral ward arrangements once the Council size is determined by the Commission. It should be noted that any person or organisation may submit proposals relating to Council size and electoral warding arrangements.
- 1.6 The first stage of the process for the Council is to submit its proposals in relation to the Council size. The submission must provide a good rationale and evidence to support the number of councillors which the Council believes is required for effective and convenient local government.
- 1.7 In determining the right Council size, the Commission will consider three areas:-
- The governance arrangements of the Council and how it takes decisions across the broad range of its responsibilities.
  - The Council's scrutiny functions relating to its own decision making and the Council's responsibilities to outside bodies.
  - The representational role of councillors in the local community and how they engage with people, conduct casework and represent the Council on local partner organisations.
- 1.8 All issues should be considered against future trends or plans as well as current arrangements.

The usual annual canvass arrangements and the continued impact of Individual Electoral Registration must also be managed during this time.

- 5.1.2 To assist in taking forward the review, the Chief Executive has commissioned the assistance of a former Association of Electoral Administrators (AEA) consultant, Peter Smith, who has managed a number of local authority electoral reviews.
