**4/22-
23**

Committee received an update on progress made with the Investment Plan due to be submitted as part of the UK Shared Prosperity Fund.

The Assistant Director of Transformation & Communication explained that the Council had commissioned a consultancy firm to support the process.

Members discussed the aspects of the Plan that the Council would have to undertake itself. The Assistant Director of Transformation & Communication explained that commissioning would have to be undertaken by the Council.

Members requested a costed breakdown of what would happen with the fund,

particularly in terms of how Section 106 money was used. The Assistant Director of Transformation & Communication explained that it was difficult to break down beyond thematic allocations at this stage because the Shared Prosperity Fund would simply be an amount given by the Government to then be allocated via a mixture of commissioning, competitive bidding rounds and direct allocations over the next two and a half years. S106 funds had been included to provide an idea of spending totals.

Members were concerned that match funding for certain communities was mentioned in the plan. The Assistant Director of Transformation & Communication explained that match funding was generally expected in schemes like this.

Members discussed including assistance for specific areas within the plan. The Assistant Director of Transformation & Communication explained that the plan had not yet reached the point of identifying individual areas.

There were concerns that a consultancy firm would be employed to assist with the plan consultation, development and writing process. The Assistant Director of Transformation & Communication explained that in recognition of the tight timescale and workload required, the Government had issued a ringfenced resource to all Councils to allow them to engage third parties to support this work.

RESOLVED - That the Committee notes the update.
