Service Area Being Assessed:	Area Housing Office Service – proposal not to re-open – post Covid-19.					
Section:	Corporate Services					
Date of Assessment:	19 August 2020 update					
Person(s) Responsible for Assessment:	Marcus Bishop, Head of Business Development					
Is this a new or existing Policy?	During the Covid-19 lockdown Area Housing Offices were forced to close due to Government restrictions. Despite this change rent income levels from AHO customers have remained strong. During the 5 and half month period (since 23 rd March), customers have successfully switched channels to make payments using – Post Offices, Direct Debits, Contact Centre, Pay Zone and the website portal.					
	NEDDC has 7452 tenants. In the 6 months pre lockdown, 1658 used an Area Office to pay rent.					
	RHL has proactively contacted all customers during the lockdown period making welfare calls and supporting people to make rent payments. From these calls, 31 customers confirmed they have not moved to an alternate payment method.					
	Where there has been non-payment of rent the majority of the reasons have been financial difficulties caused by loss of employment and furlough not access to AHO's.					
	NEDDC Revenues and Benefits confirm that a similar payment pattern has emerged regarding Council tax payment. The key reasons for non-payment have been the due to loss of employment and furlough.					
	31 people have made specific comments that they are waiting for the Area Office to reopen to make a payment. RHL have been working to support these 31 customers to make alternative payment arrangements that are suitable for these individuals.					
	Given the circumstances presented because of Covid-19 and the customer response RHL/NEDDC are considering the need for service provision from the 4 Area Housing Offices.

Targeted at people who currently use AHO's. CIT would facilitate the workshops with a member of the financial inclusion team.

We can identify who currently uses the service and target them specifically through a mail out or telephone contact. Using this information, we can identify the barriers that will prevent them using alternative payment methods and develop a solution.
