Hackney Carriage Tariff Increase Request

Report of the Licensing Team Leader

This report is public

Purpose of the Report

• To consider an increase in the hackney carriage tariff for Hackney Carriages in North East Derbyshire.

1 Report Details

- 1.1 In accordance with Section 66 of the Local Government (Miscellaneous Provisions) Act 1976 the licensing authority may fix the MAXIMUM rates or fares for journeys within the Controlled District of the Council, together with all other charges in connection with the hire of a hackney carriage. Where a licensing authority set rates for hackney carriages this is normally called the 'Tariff'.
- 1.2 Once set, the tariff applies as a maximum fare to all journeys within the District boundary and for all journeys which start or finish outside the district unless the driver and hirer have agreed a different price prior to the commencement of the journey. A driver may charge a lower tariff than that set by the licensing authority.
- 1.3 The Council does not have the power to set fares in respect of private hire vehicles.
- 1.4 At the time of writing this report the Council has 165 licensed private hire vehicles and 7 licensed Hackney Carriages. Therefore Hackney Carriages represent approximately 4.2% of vehicles licensed by this authority.
- 1.5 The Authority does not have any Hackney Carriage ranks. The reason for the lack of ranks is because the Authority does not have any town centres of significant size and high levels of footfall to service those ranks. As a result the hackney carriages licensed by the authority obtain most of their work from pre-booked work while some hackney carriages will undertake a limited amount of work form being flagged down in the street.
- 1.6 There is a concern that the current tariff set by the Council is of such a level that it is preventing vehicle proprietors from investing in newer vehicles. At the present time all the Hackney Carriages licensed by the authority are over 10 years old.

- 1.7 The current maximum tariff set by the authority is well below the market fares charged by private hire operators & vehicles in the district.
- 1.8 With the increasing costs of insurance, repairs and fuel, businesses with Hackney Carriages licensed by the Council have to be profitable and should be able to invest in newer, safer, more energy efficient and environmentally friendly vehicles. This will not only benefit the businesses located within the district, but will also benefit the public, who will be able to hire newer, safer and more environmentally friendly vehicles in the future.
- 1.9 The Council last increased the hackney carriage tariff eight years ago in 2012 and to continue to limit the fares at these levels will be counterproductive and restrict investment in the trade.
- 1.10 In December 2017 a request was received from the members of the hackney trade in North East Derbyshire to increase, but that request was rejected.
- 1.11 The current tariff together with the maximum tariff which members are requested to consider adopting is set out below:

Tariff One - For hiring commenced between the hours of 06:00 to 22.59 daily	Current Fare	Proposed Fare
First 1/8 th mile, 220 yards or 4 minutes	£2.00	£2.10

Waiting time for Tariff Three	40 seconds or part of 30p	40 seconds or part of 40p
Soiling Charge	Current charge	Proposed Charge
To cover cleaning and the loss of income where the interior of the vehicle is soiled, at the discretion of the driver	The sum will not exceed £60.00	The sum will not exceed £75.00

1.12 The National Private Hire Association publishes monthly league tables of fares in the Private Hire and Taxi Monthly magazine for every licensing authority in England, Scotland and Wales. The table ranks licensing authorities based on the cost of an average two mile fare. A copy of the table from January 2020 is provided at Appendix 1.

In brief the table lists 363 local authorities, of which five do not set tariffs for their hackney carriages.

At the present time the fare for a two mile journey in North East Derbyshire is £5.00 which places the Council 331st out of 363 authorities.

As a comparison of North East Derbyshire against our neighbouring authorities (based on a two mile fare) are as follows:

Council	Two mile fare	League position	Last increase
NEDDC (current)	£5.00	323	2012
NEDDC (proposed)	£5.85	200	
Amber Valley	£5.20	310	2014
Bolsover	£4.60	349	2015
Chesterfield	£5.75	228	2017
Derbyshire Dales	£4.80	343	2011
Rotherham	£5.40	288	2017
Sheffield	£6.40	95	2016
National average rate	£5.96		

1.13 Should the Licensing Committee be minded to vary the table of fares, then the proposed tariff must be published in in a local newspaper circulating in the district providing a period of not less than fourteen days for objections to the proposed variation of the tariff to be made.

If no objection is duly made within the period specified on the notice, or if all objections are withdrawn, the table of fares or variations shall come into operation

on the date of the expiration of the period specified in the notice or the date of withdrawal of the objection/s whichever is the later.

If objections are received and not withdrawn the Council shall set a further date, not later than two months after the first appointed date (the date of expiration of the notice) on which the table of fares shall come into force with or without modification after consideration of the objections.

2 Conclusions and Reasons for Recommendation

2.1 In accordance with the legislation the Council may at any time fix the maximum rates or fares for journeys within the Controlled District of the Council, together with all other charges in connection with the hire of a hackney carriage.

3 Consultation and Equality Impact

3.1 The proposed tariff will be subject to a full public consultation in accordance with statute. Any objections received and not withdrawn shall be considered by the Licensing Committee who shall set a further date, not later than two months after the first appointed date (the date of expiration of the notice) on which the table of fares shall come into force with or without modification after consideration of the objections.

4 Alternative Options and Reasons for Rejection

4.1 Should the Licensing Committee reject the request to amend the proposed tariff then the reasons for that rejection must be recorded and a decision notice issued.

5 <u>Implications</u>

5.1 Finance and Risk Implications

5.1.1 There will be a cost of approximately £500 to cover the cost of publishing the statutory advert in a local newspaper. This cost may be recovered as a legitimate cost from future hackney carriage licence fees.

5.2 <u>Legal Implications including Data Protection</u>

5.2.1 Any amendments to the hackney carriage tariff must be carried out in accordance with the statutory requirements set out in the Local Government (Miscellaneous Provisions) Act 1976.

5.3 <u>Human Resources Implications</u>

5.3.1 None.

6 Recommendations

6.1 That Members consider the request for a change to the hackney carriage tariff and either:

- a) Approve the proposed variation to the hackney carriage tariff, subject to the publishing of a statutory notice in a local newspaper and objection received being considered by this Committee prior to the implementation of the revised tariff (with or without modification after consideration of the objections.).
- b) Refuse the request for a variation to the hackney carriage tariff.

HACKNEY FARES TABLE JANUARY 2020

NATIONAL AVERAGE TWO MILE HACKNEY FARE TARIFF ONE IS NOW £5.96

Councils in positions 359-363 do not impose a tariff for their hackney carriages and instead the individual vehicle charges an agreed fare prior to

PLEASE NOTE

Broadland DC are not listed in our tables as although they are a council, they have no hackney ranks (and therefore no council tariff) within their boundaries.

Where an (x) appears by a listing, it refers to the fact that a fare update has been passed by the council, but the price of our two-mile fare has not increased.

In the case of Cotswold where a (y) appears alongside the listing, the (y) refers to a fare update but one in which the fare has decreased for a two mile tariff.
